

DODO QUEST

Phygital quest
«Treasures of Mauritius»

Unique format - "treasures of Mauritius" by Dodo Quest. It is a **large-scale island quest** where players can choose their own route through the most picturesque places.

From **two hours to several days**, from the confines of a hotel to the entire island or even neighboring Rodrigues, **from 30 to 1000 people**, by car or on foot - a unique scenario tailored specifically for you.

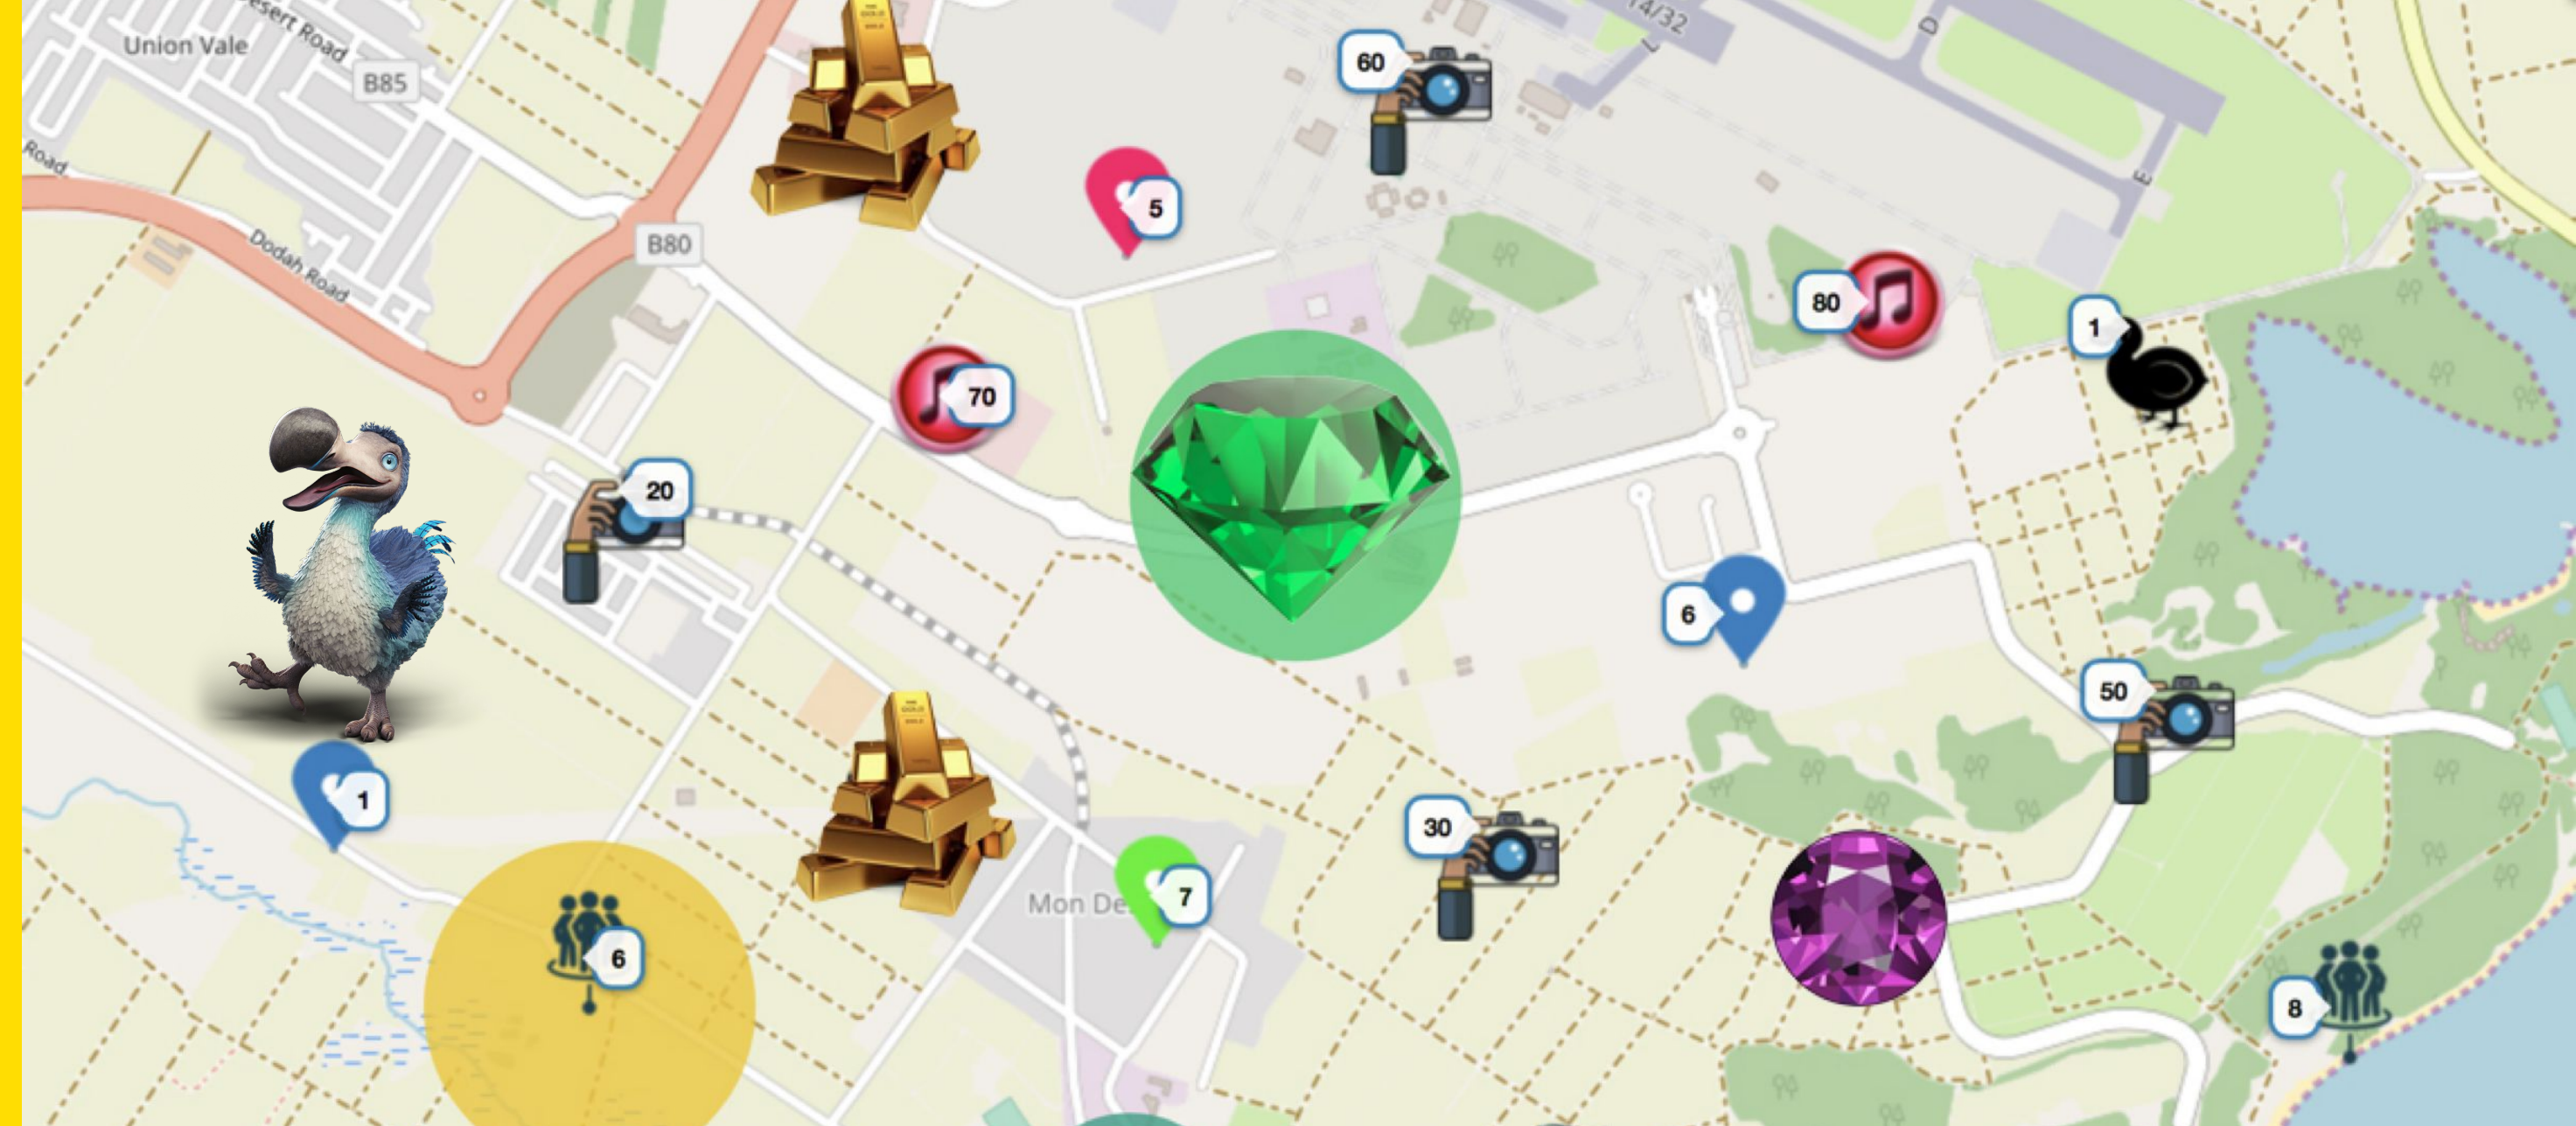

Here's how it works:

We create a **unique quest for the chosen territory**. It could be a "pirate" island, a safari park, or the entire Mauritius.

Participants open a map on their smartphones with **multiple icons representing checkpoints**.

At each checkpoint, participants encounter a new task related to that **specific location (creative photo/video, scavenger hunt, augmented reality, logic puzzle, or team challenge)**. The key is that teams get to choose their **own route**, ensuring that everyone has their **own adventure!**

Here are some scenarios and unique locations to choose from:

1. **Safari Park Adventure** in the style of Jumanji or Lost: Embark on a thrilling safari park quest, encountering wild animals and solving puzzles inspired by adventure movies.

2. **Treasure Hunt of an Old Ship:** Dive into the search for treasure in the Mansion build from old ship wood, following clues and overcoming challenges to uncover hidden riches.

3. **Gold Rush in Closed Hunting Grounds:** Experience the excitement of a gold rush in closed hunting grounds, where participants can try their luck at finding precious gold nuggets while navigating through the wilderness.

4. **Rescue Mission on a Remote Island with a Lighthouse:** Take part in a daring rescue mission on a remote island. Solve puzzles, find clues, and save the day in this immersive adventure.

Choose your preferred scenario and let us know, and we will tailor the quest to suit your desires and create an extraordinary experience.
